

CUSTOM CONVERTING & FABRICATION

Tapecon's converting capabilities can help improve your product by changing the fit, form or function of raw materials into components that improve your product's usability. We combine multiple techniques to fabricate intricate and unique constructions for medical and industrial applications. Our knowledgeable staff can assist with material and adhesive selection to solve your specific application challenge.

Capabilities

Precision Slitting
Die-Cutting
Laser Cutting
Scoring
Stacking & Sheeting
Roll to Roll Converting

Laminating
Zoned Adhesives
Multi-Layer Constructions
Creasing & Cuffing
Rewinding
Perforating

Punching
Web Cleaning
Forming
Bending
Assembly

ISO 9001
ISO 13485

Applications

ESD/EMI/RFI Shielding
Filters
Vibration Damping
Cushioning
Shock Absorption
Venting

Wearables
Pouches
Test Strips
Seals & Gaskets
Spacers

Thermal Management
Insulators
Components for Electronic Devices
Sealing Tape
