

PRINTED ELECTRONICS

Tapecon can help improve your product by manufacturing flexible circuits, membrane switches, and electronic components that improve product usability. We create quality printed electronics parts by combining elements of engineered materials with innovative techniques in printing, laminating, die-cutting, slitting, wire attachment, custom assembly, and more.

Capabilities

Printed Conductive Inks
Laminating
Die-Cutting
Precision Slitting
Product Assembly
Electronic Components
Tactile Buttons
Textured Coatings

Pick & Place (SMT)
Embossing
Housings
Metal Backers
Embedded Component Technologies
ESD/EMI/RFI Shielding
Module/Edge/Pin Connectors
Testing
Backlighting

ISO 9001
ISO 13485

Applications

Numerical Keypads
Custom Membrane
Keypads
Elastomeric Keypads
EL Backlit Panels
Flexible Circuits

Proximity Sensors
Force Sensors
Flexible Heaters
Track & Trace Devices
Hybrid PC Board/Switches
